*To receive free software upgrades with your purchase of a new MET/SUPPORT Gold plan, please provide license verification by running the license reports "license.rpt" from your existing workstation. If licensed for more than one server, run one report from a work station at each licensed server. This will allow us to send you the correct number and type of upgrades for your specific configuration. Attach these reports to this form.

If you are purchasing new Fluke Metrology Software and a MET/SUPPORT Gold plan at the same time, your license information will be recorded at the factory prior to shipment.

Please send this form with your purchase order to Fluke Corporation or your local Fluke representative.
